Valley's First & Foremost

HONDA

7514 Reseda Boulevard
Reseda, California 91335
Telephone 345-7616

Gentleman;

As a participating Honda dealer in California, we at Kolbe Motors have had almost two years head start in finding ways to help our salesmen not only sell the new Honda car, but make more profit on each sale. We install what we call our "G.T. Package" on most of the new cars we sell. The following accessory items seem to be most in demand and require the least amount of effort to sell.

1. 8,000 R.P.M. tachometer	\$ 35.90
2. Wooden rim alloy steering wheel	\$ 39.95
3. Pos-A-Traction mag wheels	\$ 140.00 (set of four)
4. Bridgestone radial tires	\$ 115.80 (" " ")
5. Fender Flairs	\$ 24.95 (" " ")
6. Wood grain dash insert	\$ 7.95

Add to price of car	\$ 364.55
---------------------	-----------

Dealer cost	\$ 238.15
-------------	-----------

** Dealer profit **	\$ 126.40
---------------------	-----------

This is only the beginning. Honda has radios, consoles, rubber mats and a selection of other items to help pack a little more profit in each car.

Please take just a few minutes and look through the enclosed brochures on KOLBE accessories for the Honda car. Every item is a time proven hot seller and we have all of them available for immediate shipment. As manufacturer and distributor for many custom Honda auto accessories, may we invite your questions or suggestions on any way we may help you sell more cars.

Sincerely,

Don Cernick
Accessory Mgr.
